REVOLUTIONARY OFFICE SOLUTIONS

SUNLINE®

Scan w/ your phone, watch a short video, and see for yourself!

The new **Sunline® Sliding Cubicle** system is now available in the US and Canada exclusively through Sunline Office.

These unique, modern, cost-effective workstations can be configured in thousands of combinations for style, comfort, collaboration, and privacy.

It's the easiest cubicle in the world to assemble – or disassemble and reconfigure when it's time for a change. Glass and fabric wall panels simply slide in and out of place. Cubes go up in less than half the time as normal cubicles with no special installation skills required!

The flexibility and long-term value is so outstanding, your company will never need to look for another cubicle system again.

Slide into Sunline® to brighten your office space and your staff!

EASIEST CUBICLES IN THE WORLD TO ASSEMBLE!

- Sunline® stations go up or come down in less than half the time as regular cubicles with no special installation skills required!
- As with all configurations of the Sunline® Sliding Series, no tools are required to build the walls – only a power screwdriver and some screws to secure the work surface to the cubicle wall!

ADDITIONAL UPGRADES

See pg 10 (sold separately)

- ▶ monitor arms
- ▶ magnetic white boards
- ▶ overhead cabinets
- ▶ below surface cabinets
- ▶ shelves
- ▶ sit-stand desks

HIGHEST HEIGHT CUBICLES

HIGH

65" high cubicles are designed for extra privacy with abundant storage options. This configuration is great for creating personal space and blocking noise.

SKU: 1050

6' x 6'

- Switch from fabric to glass for more openness if desired, or vice versa for more privacy
- Locking overhead cabinets are an excellent storage option that protect many items, while keeping the main work area clear
- Below-the-surface cabinets are a great option for stationary, loose items, and files
- High quality, anodized aluminum connector posts are built to last for many years

Clover Demountable Glass Walls

Attractive and practical, floor-to-ceiling offices have increased in popularity since the rise of coronavirus cases across the world. These fully enclosed structures allow team members to safely work in the office and practice social distancing throughout the day.

FLOOR-TO-CEILING DEMOUNTABLE WALL OPTIONS

Arnold's Office Furniture offers two main types of floor-to-ceiling glass wall options.

► High wall glass offices:

Constructed from single panes of glass, this type of floor-to-ceiling office can be outfitted with a door for additional privacy if desired. The glass is easy to keep clean, making it simple to follow CDC sanitization guidelines. All high wall glass office systems can be custom-made to order, ensuring that you get the perfect fit every time.

► High glass wall enclosures:

Preferred for conference rooms and call centers, these double- or single-paned high glass walls go from floor to ceiling and can provide a noise-reduced space for several people. Like all fully-enclosed floor-to-ceiling workstations, they can be disinfected inside and outside using an appropriate solution. We make each high-glass wall enclosure to order depending upon client specifications.

BENEFITS OF FLOOR-TO-CEILING DEMOUNTABLE WALLS

- They make social distancing intuitive.
- They reduce noise and increase privacy.
- They provide an affordable, streamlined way to get the feel and function of traditional offices.
- They give employees peace of mind about returning to the office.

FLOOR PLANNING

DESIGN SERVICES

A specialized Sunline® space planner will create the most optimized floor plan for your office space that will save you money while satisfying your design goals.

Let us show you why Sunline® is the easiest system in the world to assemble, disassemble, and reconfigure. Never look for another office furniture system.

FLOOR PLANNING SERVICES

We offer complimentary professional floor planning services. Following a short phone call with a dedicated office furniture expert to discuss your needs, your blank floor plan will be transformed into a fully furnished design, optimizing your office space with your desired furniture options. This detailed floor plan will be used to create your quote and complete your installation and can usually be turned around within 24 hours.
