

## ENVIRONMENTAL, QUALITY, AND SAFETY STATEMENT

At Sunline, we continually evaluate our purpose and processes—fostering transparency, responsibility, and innovation in our supply chain. Our goal is to ensure that the environments you create are healthier, safer, and more sustainable. We’ve pursued internationally recognized certifications to demonstrate our commitment to sustainability, product safety, and responsible manufacturing.

### Healthy Indoor Air Quality

Indoor air quality is essential to healthier workplaces. Sunline products are GREENGUARD Certified by UL Environment. This certification verifies that our furniture meets rigorous chemical emissions standards, contributing to cleaner air and healthier indoor spaces. GREENGUARD Certified products support compliance with LEED® and WELL Building Standard® requirements for low-emitting materials.

### Sustainable & Responsible Materials

Sunline is committed to responsible forestry practices and sustainable materials sourcing. Through our FSC® Chain-of-Custody Certification, we ensure that wood and wood-based products come from responsibly managed forests that provide environmental, social, and economic benefits. This certification covers plywood, particleboard, MDF, veneer, and solid wood.

### Certified Quality, Safety, & Environmental Management

Our dedication to continuous improvement and responsible management is demonstrated through our internationally recognized ISO certifications:

- ISO 9001:2015 – Quality Management: Ensures consistent product quality, customer satisfaction, and continual improvement across all operations.
- ISO 14001:2015 – Environmental Management: Focuses on reducing environmental impacts, optimizing resource use, and supporting circularity in our manufacturing processes.
- ISO 45001:2018 – Occupational Health & Safety Management: Protects the well-being of our employees, ensuring safe and healthy workplaces while reducing risks and incidents.

## EPA TSCA Title VI Certification

Sunline's composite wood materials comply with U.S. EPA TSCA Title VI (CARB Phase II) formaldehyde emission standards. This certification ensures that our products meet strict chemical safety requirements, protecting indoor air quality and supporting healthier work environments. Compliance is verified by SGS Hong Kong under 40 CFR 770.15 and 770.40 of the Toxic Substances Control Act, demonstrating Sunline's commitment to low-emission, environmentally responsible materials.

## BIFMA Compliance

Select Sunline furniture systems are tested and certified to meet ANSI/BIFMA X5.6-2016 standards for panel systems, verified by SGS. This ensures Sunline products deliver superior durability, safety, and performance under rigorous testing, including stability, mechanical strength, and load-bearing evaluations. Compliance with BIFMA standards demonstrates our dedication to ergonomic, safe, and long-lasting workplace solutions.

## UL Compliance

Select Sunline office furniture components are UL Certified under UL 1286 and CSA C22.2 No. 203-M91 for modular office furnishing systems. Certification by UL verifies that our furniture meets rigorous North American electrical and mechanical safety standards, ensuring reliable and safe use in office environments.

## Commitment to Continuous Improvement

Sunline is committed to assessing the environmental impacts of our products across their life cycle—from material sourcing to end-of-life management. With these certifications as a foundation, we continually improve our processes to reduce emissions, minimize waste, and enhance workplace health and safety. By choosing Sunline, you support sustainable forestry, better air quality, safer workplaces, and high-quality products designed to meet global environmental and social responsibility standards.

### Certifications Held by Sunline

- ✓ GREENGUARD Certified for indoor air quality
- ✓ FSC® Chain-of-Custody Certified
- ✓ ISO 9001:2015 (Quality Management)
- ✓ ISO 14001:2015 (Environmental Management)
- ✓ ISO 45001:2018 (Occupational Health & Safety)
- ✓ EPA TSCA Title VI (CARB Phase II) Certified for low formaldehyde emissions in composite wood products
- ✓ BIFMA X5.6-2016 Certified for safety, durability, and performance of panel systems
- ✓ UL 1286 / CSA C22.2 No. 203-M91 Certified for electrical and mechanical safety in modular office furnishings
