

SUNLINE SYNERGY

700 SERIES
FRAMED

700 *SERIES*
FRAMED

The 700 Series is a modular partition system built for fast, low-hassle installation. Its standardized components enable flexible layouts, quick assembly, and minimal site disruption—all while delivering a sleek, versatile aesthetic that fits a range of styles.

STYLE / VALUE

The Sunline Synergy Series 700 combines clean, modern style with smart functionality. Its modular design allows for flexible layouts and quick installation with minimal hardware, reducing build time and site disruption. Sleek and adaptable, it's a streamlined solution for any professional space.

SPARK CREATIVITY

Transform your workspace with the Sunline Synergy Series 700, available in vibrant finishes. These bold glass walls energize any office, enhancing natural light and adding dynamic visual appeal. They create a bright, inspiring environment that reflects your brand's personality and encourages creativity. More than just partitions, they're powerful design tools that set your space apart.

DESIGN PHILOSOPHY

The Sunline Synergy Series 700 is built on a design philosophy of simplicity, flexibility, and efficiency. Its modular components and screw-light construction make assembly and reconfiguration fast and intuitive. Clean lines and seamless connections deliver a modern, minimalist look, while the adaptable structure accommodates a wide range of layouts and design styles. This thoughtful approach ensures quick installation and effortless integration into any workspace—balancing form, function, and refined aesthetics.
